Dear Daughters,

An exciting Autumn Meeting is being planned for every New Jersey Daughter! We will be gathering for fun and festivities at the Hyatt Regency Princeton beginning on Friday afternoon, September 20th and continuing through the afternoon of Saturday, September 21st.

Friday evening starts off with a gathering where members can meet and socialize with the State Board of Management. Think of it as Friday Night Fun Night! Some trivia question type games are being planned and we hope you join us for lots of laughs, a few giveaways, and an opportunity to meet a new friend. We then head to the dining room for *The Jersey Girls Dinner*. The reservation for this meal will be part of the Autumn Meeting reservation form (attached).

Saturday morning events start early! Committees along with the Northern District's host chapters are welcome to create an information/fundraising table. We will have the entire private HALLWAY for exhibit tables. Exhibits may be set up on Friday and left up through Saturday. A storage room will be available to store valuables, if needed.

Reach out to Samantha Seamans-Frizzell, Conference Vice-Chair of Planning, for an exhibit table reservation by emailing her at: samsnjdar@outlook.com before September 13, 2019.

**D. Joshua Taylor, MA, MLS, host of *Genealogy Roadshow*
and a featured genealogist on *Who Do You Think You Are?*
will be our guest speaker at the Saturday luncheon!**

His presentation topic, "Honoring Our Ancestors: Celebrating Legacies and Enriching the Future" will fit so well into our Autumn Meeting theme. You will not want to miss this special, first, Autumn Meeting of the new Matthews Administration.

Come out and hear our wonderful speaker, meet our guests, shop, support our committee/chapter fundraisers, reconnect with old friends and meet a new one, too. Daughters are always encouraged to bring prospective members, friends, and spouses.

Looking forward to seeing you all in September. Make your room reservations today!

Sincerely,

Bonnie Matthews, State Regent
